PREFACE

Thanks to Allah SWT, for all of blesses to us. Thanks to my lovely family, for the continuous love and supports. Thanks to Accounting batch 2022 who write the updated issues surrounding public sector accounting. Thanks to us.

This book is dedicated to supporting the teaching and learning process at President University which requires the use of English. Some of President University's students come from abroad (China, Timor Leste, Vietnam, etc.), so the limited public sector accounting literature in English and with an Indonesian context makes the lessons less than optimal. The existence of this book bridges a more organized public sector accounting curriculum on campus. From this book, Students are expected to have the ability to adapt to the latest issues that occur. The students' previous work with the lecturer will be the main discussion material. Students are asked to read and discuss it in class. At the end of the meeting, students are expected to master not only the theoretical foundations, but also the latest practices in the realm of public sector accounting in general.

Cikarang, August 17, 2024

Dr. Supeni Anggraeni Mapuasari, SE., MSc., CRP.
